WHAT THE PRESS SAY.—"COSTAR'S" Exterminators are invaluable remedies for clearing houses of all sorts of vermin. With all confidence we recommend them.—*N. Y. Daily State Register.*

"COSTAR'S" remedies for all domestic pests, such as Rats, Roaches, Bed-Bugs, Ants, Fleas, &c. are invaluable; we can speak from actual knowledge of their merits. Druggists and Dealers should send their orders early, if they would secure a trade in them.—*New York Journal.*

"I shall write something about your Exterminators, as I can do so with propriety. They are selling rapidly here and destroying all vermin.—*Ed. "Banner," Bugalo, Mo.*

"DEATH TO ALL VERMIN."
As Spring approaches,
Ants and Roaches,
From their holes come out,
And Mice and Rats,
In spite of Cats,
Gaily skip about.
Bed-Bugs bite
You, in the night,
As on the bed you slumber,
While insects crawl
Thro' chamber and hall,
In squads without number.

IT IS TRULY WONDERFUL WITH WHAT CERTAINTY, Rats, Roaches, Mice, Moles, Ground Mice, Bed-bugs, Ants, Moths, Mosquitoes, Fleas, Insects on Animals. In short every species of Vermin, are utterly destroyed and exterminated by

"Costar's" Rat, Roach, &c. Exterminator,
"Costar's" Bed-Bug Exterminator,
"Costar's" Electric Powder, for Insects.

Supplied *direct*, by mail, to any address in the United States, as follows:
On receipt of $1,00, a box of the Bat, Roach, &c. Ext.;
On receipt of $2,00, a box each of the Rat, Roach, &c. Ext., and Electric Powder, (sent postage paid,) sufficient to destroy the vermin on any premises.
Sold by Druggists and Dealers everywhere.
"Costar's" Principal Depot, 420 Broadway, N. Y.
P. S.—Circulars' terms, &c., sent by mail on application.
☞ Wholesale Agents for Pennsylvania:
COSTAR'S BRANCH DEPOT,
Northeast corner Fifth and Arch Streets,
Philadelphia,
And Wholesale Dealers generally.

Select Poetry.

"Teach Me to Know Mine End, and the Measure of My Days, What it Is."

Where shall I die? shall dear friends gather round me
To wipe the "death sweat" from my throbbing brow,
Shall these I love, in sadness then surround me
As true, as kind, as loving then as now?
Or shall some stranger hand when all is ended,
With careless touch close up my fading eye
Far from my home, unwept and unattended?
Father of life! O say where shall I die!

How shall I die? Shall pain and anguish smite me
And rack my frame with sharp relentless hand,
Shall slow disease with gentle force invite me
To leave this world and join the spirit band?
Or shall I fall, as fell the star of morning,
Sudden and swift from out the calm clear sky,
Without one hint—one gentle, timely warning,
Father of life! Oh say how shall I die!

When shall I die? Shall age and honors crown me
Before the summons issue from thy throne?
Or shall I fall, with mid-day's sun around me,
When life is sweetest and its use best known?
Or shall my youth with all its warm affections
Sink in the grave in darkness there to lie,
Blighted in bud and flower—before fruition,
Father of life! O say when shall I die!

Hush! O my soul, away with this repining
This anxious fear, about thy stay on earth;
Pause, and with heart in calm, meek love reclining
Submit thy death to Him who gave thee birth.
He who first called thee to immortal being,
Child of the earth, to rear thee from the sky,
Walks by thy side, thy every footstep seeing,
Knows when and where and how 'tis best to die.

Select Miscellany.

Avenging an Insult.

On the subject of war *William Ladd* remarks that it is declared to revenge an insult. An armed ship approaches one of equal force, which hoists the flag of the declared enemy. In both ships the Bibles, if the sailors have any, are bundled up in the hammocks, and stowed away in the nettings, to stop the enemy's shot.—All thought of the holy precepts contained in them is suspended. Then their only thought is to maim, kill, burn, sink, and destroy. The chaplains on board each vessel resort to their respective stations, to pray for victory to the same God, through the intercession of the same Redeemer. Broadside after broadside is poured into the contending ships. The scuppers run with blood. Groans, screams, curses, blasphemy, are heard above the roar of cannon and the rattle of musketry. The ships grapple, timbers crack, spars are shivered, the masts fall on the reeling vessels, unheeded by the crew, except they crush some of them to pieces. Their only object is to thrust their spikes through the hearts of their opponents. The victory is achieved, or perhaps both ships sink to the bottom, carrying down the killed and wounded, victors and vanquished.—Or, perhaps, one ship is set on fire, and the crew are driven by the flames to the extreme parts of the vessel. In such instances, men have been known, as the victory of Trafalgar, to blow out their own brains, or jump overboard to prevent their being burnt alive, or swallow immense quantities of ardent spirits, to make them insensible to their sufferings. At length the fire reaches the magazine; a tremendous explosion ensues, and the other ship, if not destroyed, is covered with mangled limbs and pieces of the wreck. These and their own dead they throw overboard; and then indulge in revelling; death, hell, and judgment are mocked; and with joyful hearts they bear away for home, to boast of their victory, and tell how many of the enemy they have sent to endless perdition; and a whole Christian nation gives itself up to diabolical joy and rejoicing! Pictures of the battle are painted and engraved and scattered round by hundreds; the enemy are caricatured, ridiculed, and insulted; and pride, boasting and self-confidence everywhere prevail. Does not this injure the moral feelings of a nation? "Ah! but we have had our revenge; and revenge is sweet." Yes, it is sweet to a savage, and a nation becomes savage when indulging in it.

☞ When the fierce winds of adversity blow over you, and your life's summer lies buried beneath frost and snow, do not linger inactive, or sink cowardly down by the way, or turn aside from your course for momentary warmth or shelter, but with a firm step go forward, with God's strength to vanquish trouble, and to bid defiance to disaster. If ever there is a time to be ambitious, it is not when ambition is easy, but when it is hard. Fight in darkness, fight when you are down, die hard and you won't die at all. That gelatinous man whose bones are not even muscles, and whose muscles are pulp—that man is a coward.

☞ It is not what people eat, but what they digest that makes them strong. It is not what they gain, but what they save that makes them rich. It is not what they read, but what they remember that makes them learned. It is not what they profess, but they practice that makes them righteous. These are very plain and important truths, too little heeded by gluttons, spendthrifts, bookworms, and hypocrites.

Extraordinary Mesmeric Delusion.

According to the New Orleans journals, a person calling himself Professor Hale tried a very curious experiment at the new concert hall in that city, one evening lately. As certain members of this audience were inclined to be skeptical, the professor induced a couple of well-known citizens to go upon the platform, and announced to the spectators that he would give them unanswerable evidence of his psychological power. After getting them into a "trance state," he invited them to make a voyage to California with him; and by the mere exertion of his will, he made them experience all the annoyances and trouble of a long sea trip; caused them to be shipwrecked; to go to the mines, make fabulous fortunes, bring their gold dust to him, and take his checks on a city bank for the respective amounts. The subjects took the checks (pieces of a playbill,) and seemed perfectly contented with their apocryphal fortunes. But the professor did not stop there; he stated that the gentlemen would remain under the illusory influence until the following morning, when they would actually present their supposed checks at the bank, and invited the audience to come and see for themselves. At ten o'clock on the appointed day, a large crowd had assembled in the bank to see the fun, and in came one of the deluded, with a piece of tattered paper in his hand. The paying-teller had been "posted," and when the mesmerized asked if his "check" was good, replied in the affirmative. He even offered to cash it; but the gentleman, still acting by the will of the professor, declared that he only wanted to know whether it was all right and would leave the money on deposit. Scarcely had No. 1 gone from the bank, when deluded No. 2 rushed in, and said, very pompously, that he had "a check for fifty thousand dollars from Professor Hale, which he desired to have cashed." The teller pretended not to be able to read the writing, when the holder read off the regular form (though not a word was on the paper,) and endorsed it across the back, as requested. The teller then observed that the amount was payable in coin, and pointed to a large, empty specie box, which he said contained fifty thousand dollars. The mesmerized said that he would hire a cart to take it away, and went out for that purpose. On his return, the teller informed him that he had just discovered Professor Hale's account to be overdrawn, and could not honor the check. No sooner did the deluded man hear this, than he rushed frantically from the bank, entered Concert Hall, and attempted to stab the Professor with a sword-cane. Hale narrowly escaped being spitted by his assailant, who struggled fiercely with those who held him, and called the Professor a cheat. He was at last induced to hear Hale's explanation, when that gentleman cautiously approached him, and, with a few mesmeric passes, brought him to himself. Nothing could exceed the wonder of the entranced individual when he discovered his situation, and heard of his attempt to slay the professor. He said that he felt like one just aroused from a deep sleep, and could remember nothing, from the time when he ascended the platform and was mesmerized. The other subject was soon found, and allowed to have a will of his own; and both subjects pronounced the professor the most wonderful man in the world.

Charcoal for Man and Beast.

The Valley Farmer says one of the most simple and excellent medicines for any derangement of the stomach of human beings, is finely pulverized, fresh burnt charcoal. For this purpose it should be closely corked up in a bottle as soon as it has been burnt and ground; a teaspoonful taken in a wine glass of water once a day will frequently be found worth more than all the quack nostrums with which the country is flooded.

But our object was to speak of the value of charcoal to our domestic animals in fattening them. A half pint of it finely pulverized and mixed with corn meal and water to each animal once or twice a week will be found extremely beneficial in aiding digestion and preventing any derangement of the stomach arising from overfeeding, as is liable to the case with that hoggish animal. Besides serving as a medicine it is also extremely fattening, either in itself or rendering the food eaten more available by correcting and stimulating the digestive powers.

Charcoal has also been known to work wonders in fattening poultry, geese, ducks, &c It may be given in the same way as recommended for swine. Fowls that have accidentally been confined for a long time where they had access to no food except charcoal, when discovered, were found not only to have sustained themselves but to have actually fattened.

☞ In most quarrels there is a fault on both sides. A quarrel may be compared to a spark, which cannot be produced without a flint as well as a steel, either of them may hammar on wood forever, and no fire will follow.

A Ghost.

The people of Rahway, according to the *Republican*, are having a ghost excitement—a spirit being supposed to haunt a certain house. The *Republican* says:—

"A big double-fisted fellow, who glories in fearing neither man nor Satan, went one night recently all alone to investigate the mystery of the apparation, taking his gun with him. It was about 11 o'clock, and the moon was shining clear and bright. He went to the gate, and after some exertion succeeded in forcing it open wide enough to crowd himself in, owing to the snow and ice which was around it; but it soon slammed shut as if some one had done it in spite. He then went and sat down on the porch, and after sitting there a few moments he heard a great noise in the house like knocking over chairs and breaking things in general. This he listened to for some time, and then went and looked around at the side of the house, and on the pavement, about three feet from him, he saw a little thing about a foot long; he watched and saw it enlarge, until it got to be about the size of a man, when he stretched out his arms and there stood "Gid Morris," (so he says) as plain as ever he saw him in life. He spoke to the ghost several times, asked it who it was and what it wanted, telling it that if it did not speak he would shoot, for he says he was not frightened, but thought perhaps, it was a trick of some one to scare him. It made no reply, but it stood perfectly still with its arms extended. At length he placed his gun at its heart and fired. He says it was perfectly still—no wind blowing at the time—but his face and eyes were completely filled with smoke; which blew off in a moment, when the ghost had disappeared with it. He looked around, but could see nothing of it, and then it was the strong man failed him, and he thought to himself:

Legs do your office,
Bear me but to my home,
Then fail me if you must,

and suiting his action to his thoughts, he left for home as fast as he could navigate—arriving at which he threw himself over the fence, too much overcome to try the gate, and after somewhat recovering he told his adventures, much to the surprise of his listeners. It may be of interest to the curious to know that we have heard it said that "Gid" had been frequently heard to declare during his lifetime, that he meant to haunt that house after his death."

Hon. Stephen Allen's Pocket-piece.

Among the many victims of the *Henry Clay* disaster was Stephen Allen, Esq., an aged man, formerly a Mayor of New York, beloved and esteemed by all who knew him. In his pocket-book was found a printed slip, containing the following advice:

Keep good company or none. Never be idle.

If your hands cannot be usefully employed attend to the cultivation of your mind.

Always speak the truth. Make few promises.

Live up to your engagements.

When you speak to a man look him in the face.

Good character is above all things else.

Your character cannot be essentially injured except by your own acts.

If any man speaks evil of you, let your life be such that no one will believe him.

Drink no kind of intoxicating liquors.

Live within your income.

When you retire to bed, think over what you have been doing during the day.

Make no haste to be rich if you would prosper.

Small and steady gains give competency with tranquility of mind.

Never play at any game of chance.

Avoid temptation through fear you may not be able to withstand it.

Earn money before you spend it.

Never borrow, if you possibly can avoid it.

Never speak evil of any one. Be just before you are generous.

Keep yourself innocent, if you would be happy.

Save when you are young to spend when you are old.

TIME'S GRATITUDE AND REVENGE.—Time is a good and faithful friend, but a most revengeful and remorseless enemy. Like a deep-feeling and love-desiring human heart, it treasures up a grateful memory of kindness and good service; and is sure, sooner or later to make payment with the addition of compound interest. But for every instance of neglect or abuse, it takes certain and terrible vengeance; and none who incur its anger can escape its punishment; for, like death, time is inexorable.

☞ The man who travels a thousand miles in a thousand hours may be tolerably quick-footed; but he isn't a touch to the woman who keeps up with the fashions.

☞ Most men employ the first part of their life to make the other miserable.

A Story.

The reader is expected to believe the following story in every particular:

When a young man I was traveling in western New York, and late of a stormy night applied at a log cabin for lodging. The occupant, a woman, refused it, saying her husband and sons were out hunting, and if they found me there they would murder me. I preferred the chance of being murdered to braving the wild fury of the storm, and she consented that I might lie down before the fire. In the night I heard them coming, and scrambled up the chimney. Thinking I was safe, when at the top, I stepped over the roof, and jumping down at the back of the cabin, struck plump into a wolf trap. A scream

ALTOONA, PA.

THURSDAY, MARCH 31, 1859.

☞ Where parties are unknown to us, our rule for advertising is to require payment in advance, or a guarantee from known persons. It is therefore useless for all such to send us advertisements offering to pay at the end of three or six months. Where advertisements are accompanied with the money, whether one, five or ten dollars, we will give the advertiser the full benefit of cash rates.

S. M. PETTENGILL & CO.,

Advertising Agents, 119 Nassau street, New York, and 10 State street, Boston, are the Agents for the *Altoona Tribune*, and the most influential and largest circulating Newspapers in the United States and the Canadas. They are authorized to contract for us at our *lowest rates*.

A DONATION.—S. M. Pettengill, & Co. the enterprising and reliable newspaper agents, at New York, have made a very handsome donation—five hundred dollars—to the Mount Vernon fund.

PRESBYTERIAN GENERAL ASSEMBLY.—The General Assembly (O. S.) of the Presbyterian Church of the United States convenes at Indianapolis on the 19th of May next. A very large attendance is anticipated.

STATE ELECTIONS.—Three more State elections are to take place this Spring. The Connecticut election comes on the 4th of April, the Rhode Island election on the 6th of April, and the Virginia election on the 26th of May. Governors and Congressmen are to be chosen in each of these States.

ROBBED.—The Pennsylvania freight Depot at Harrisburg, was robbed on Monday afternoon of $300, which was afterwards found and handed over to the owner. A young colored boy was arrested on suspicion, he having been seen prowling around the depot previous to the robbery, and after a hearing was committed to answer.

SERIOUS AFFRAY AT DUNCANNON.—We learn from the Harrisburg papers of Monday last, that an affray occurred at Duncannon, Perry county, on Saturday evening previous, in which one man was stabbed in the side and severely cut in the face. George Murray, the man who handled the knife, is said to be a desperate character, and a reward of $70 is offered for his arrest.

SICKLES.—Developments affecting the antecedents of SICKLES' career, and connecting him with a flagrant disregard of the very obligations for which he took such sanguinary vengance on KEY, are producing a sensible reaction in public sentiment. If a fraction of what is now charged should be established on the trial, some of the most shocking and astounding disclosures may be expected. This will depend upon the manner and ability with which the prosecution shall be conducted.

THE ADAMS' EXPRESS COMPANY.—In another column will be found a communication in reference to the extortion practiced by this Company in its charges on freight brought to this place. We have frequently been at a loss to know by what system the Company was governed, whether by weight, bulk, or value, in deciding upon the charges on parcels carried. We have received bundles of the same size, weight and value, on different days of the same week, on which the charges varied from 50 to 87½ cents. We could not account for the discrepancy in the charges; but one thing we felt sure of, and that was, that the lowest charge was high enough to cover expenses of carriage and leave a fair profit. We think it is optional with our citizen whether they continue to encourage this Company in charging exhorbitant rates on packages or parcels carried.

LOST MAN.—Great excitement exists in Easton, relative to the disappearance of Mr. Samuel Yeager, a prominent merchant of that place, who left there on the 14th inst., intending to go to New York, and return on the following day. He went to Newark, and left the City Hotel there at two o'clock on the 14th, for New York city, since which time no tidings have been had of him, and no trace of his whereabouts can be found. He is about thirty-eight years of age, and five feet ten inches in height; has black hair, mixed with gray; smooth face, with a patch of warts under the chin, on the left side of the neck, and was dressed in a black cloth frock coat, drab cassimere pants, and wore a felt hat. He carried an oil-cloth carpet bag.—A liberal reward is offered for any tidings of him.

☞ The Washington correspondent of the Philadelphia *Inquirer* says we are indebted to England and France to the amount of $400,000 for postal services already performed, and this indebtedness is fast increasing, while the Department has no means to cancel it, although payment has already been demanded.

Homer to the Brave.

MESSRS. EDITORS:—It has been suggested to give a new name* to the "Cove," now sometimes called the "Kettle." To this the "oldest inhabitant" makes a serious objection, and thinks it only necessary to inform the present generation and the "rest of mankind" what the original name of that beautiful, romantic and picturesque valley really is, to secure the unanimous consent of even the present fast generation in its behalf. The memory of that old veteran Indian fighter, so well known to the early settlers of Frankstown and Canoe Creek, Capt. EDWARD MILLIGAN, Sr., who so nobly defended himself and slew the enemy on the spot, deserves a continuation of the same given to it by common consent at that time. He rendered his name, by his valor, dear to all the inhabitants around about the spot, and the same immediately became the same.

On the map of Huntingdon county, constructed by John Morrison, by virtue of an Act of the Legislature of Pennsylvania, passed 19th March 1816, the romantic Gap in the Bush Mountain, through which we pass into the "Cove," is called "Milligan's Gap." The new house just erected by Mr. Samuel White, is on the ridge from which the waters run opposite directions, dividing about five yards from each other. The run flowing east, passing Brotherline's Ream's, Lewis' Curry's and Herrick's land, and the residence of Paul Hurm, the celebrated boot-maker, and the new house just erected by Mr Thos. Dobbs, is called on the said map "Sinking Run."

The run flowing west and around north to Pottsgrove's Mills, out of which the Altoona people are continually using the water, is named on the said map "Milligan's Ban."

Surely no name is more appropriate and beautiful than "Cove," and none more deserving of honor than he who so nobly fought the battle which secured the soil. Let it then, hereafter, be known only as "Milligan's Gap," "Milligan's Cove," &c. Of course the Post Office, the School District and the new township will each be named "Brotherline," in honor of the liberal pioneer of the settlers. So says the

OLDEST INHABITANT.

* In our last issue we gave the title of "Kemp's Mills" to the new settlement, by mistake, in not understanding the name. It should have been "Hurmville," in honor of the oldest settler, Paul Hurm, the celebrated Boot-maker referred in the above communication. It was not proposed to charge the name of the Gap or the Cove, but merely to give a name to the new town which will likely spring up in that "neck o' timber." As there are now two names proposed, viz:—"Hurmville" and "Brotherline," it remains for the settlers to decide for themselves which they will adopt.

Adams' Express Company.

The extortion practiced by this Company in their charges, has become so outrageous that I think the public should know of it, and avoid any connection with them that can possibly be avoided. Instances are of every day occurrance showing their charges to amount to more on articles sent than the value of the article. They have no sort of uniformity in rates—charging some persons twice as much for the same freight carried as others. There are other Express Companies in the Union—much more accommodating and safe than the above one that charge reasonable and uniform rates, and which are first running out the Adams' Express Company. I trust soon to see the "Howard" or some other such, take the place of this one along this Line, fully confident that if there was opposition here, the Adams' Company would not either receive or send a pound of freight. When I speak of them not being accommodating, I do not intend to say a word against Mr. Jones their Agent here, who is both gentlemanly and reasonable and who I know deprecates as much as I, the daily extortion practiced by the Company. He, however, has not the fixing of the rates of charges. I do not know who has, but whoever the fellow is he must have a *mathematical* head for the rates are charged every day.

OPPOSITION TO MONOPOLY.

The Poor House.

MESSRS. EDITORS:—I notice by the Report of Edward McGraw, Esq., the Stewart of the Blair County Poor House, that there were 611 paupers under his charge during the last year, and, if I understand the published Report right, each one cost per week $4 05½. This seems to me to be a great deal too much. It is more than some of my friends pay at the "Big House" in this place. I suppose, however, that some *one* thinks it all right.

I notice also by the Hollidaysburg papers, that the Treasurer of the Poor Fund—the sinecure about which there was so much talk at the last election—charged and received the snug sum of 13 per cent. for handling the funds.—Surely these prices are no indication of "hard times."

A TAX PAYER.

THE ARMY.—The Army Register for 1859 has just made its appearance. We find that our present force of regular soldiers consists of nineteen regiments all told, as follows:—Ten regiments of Infantry, averaging ten companies of 70 men each; four of Artillery, averaging 12 companies of about 50 men each; one of mounted Riflemen, two of Cavalry, and two of Dragoons—each of the latter numbering 10 companies of 60 men. It would be difficult to arrive at a correct estimate of the actual fighting material at the disposal of the War Department, but we presume the entire strength of our army is little over or under 16,000. The Register shows the grand aggregate of the militia to be all told, 2,723,425.

VALUE OF A METHODIST PREACHER IN THE SOUTH.—Rev. Peter E. Green, of the Mississippi conference of the M. E. Church, was shot by a named Fisher, near Vicksburg for receiving Fisher's wife as a member of the church of which Mr. Green was the pastor. Fisher has been tried, found guilty, and sentenced to the penitentiary for *seven years only!* Preachers and school teachers are not held in very high esteem among our Southern brethren.

A SLIGHT DIFFERENCE.—To illustrate the contrast of expense, as between the private Express Companies and the Post Office—a bag of *shot* (25 pounds) is taken from New York city to St. Louis for 30 *cents*, whilst the same weight of *letters* is charged 48 *dollars* in the mails.—Another expressive fact is that the Express Companies are responsible for their freights, whilst the Government is not.

[Special Correspondence of the Tribune.]

LETTER FROM HARRISBURG.

HARRISBURG, March 29, 1859.

Two weeks and two working days will close the present session, and yet members continue wasting time by frivolous debate, while the files are filled with bills awaiting action—some of which must go by the board, unless we have some forty hours power legislation—such for instance as we had last week, when an important passenger Railway bill was read in place, reported, and run through the House in the short space of thirteen minutes. This was on Wednesday, and on the evening of the same day the bill passed the Senate at a special session called for the purpose. On Thursday the bill went to the Governor, and on Friday it was returned with the Governor's veto. On the same day the House passed it by a two-third vote, and the Senate did the same thing on Saturday morning. All this haste was to accomplish one object; viz: to give to a new company a grant to build a passenger Railway on those great public thoroughfares in Philadelphia, Chestnut and Walnut streets. It appears that a charter was granted to another company to occupy the same route at the last session, but it was conditional—the consent of the city Councils was to be obtained, but was witheld up to the time the present bill was in the hands of the Governor. Of course a tremendous law suit is likely to follow, since it is conceded on all hands that the charter is worth a million of dollars, and that is a sum worth litigating for.

The bill chartering the Huntingdon County Bank was passed in the House to-day by a majority of eight. As the bill chartering the Mifflin County Bank still sticks in the hands of the Senate Committee, without a disposition on the part of any one to push it through, I think there is a very slim chance for the incorporation of the Huntingdon Institution.

The General Banking Law has been before the House, and there has been some very forcible speeches made in its behalf.

As the Military Law which was passed last session does not appear to be of real practical effect, especially that part of it which contemplates paying men good wages for playing soldier, without providing means for doing so, hence legislation is necessary. Several acts or supplements have been drawn up, but the following, now on the file of the House, will be likely to pass. As your county is now so eminently military, I give you the bill in full:—

Hereafter the pay of uniformed militia men, as provided for in the twenty-fourth clause of the ninth section of the act to which this is a supplement, shall be, for each officer, non-commissioned officer, musician and private of any uniformed company or troop, one dollar for every day actually on duty; and each horse used by the time, fifty cents per day; but no officer or member shall receive pay for parading oftener than four times in any one year.

SEC. 2. That hereafter the fines imposed by the third clause of the thirteenth section of the act aforesaid, shall be one dollar for every non-commissioned officer, musician and private; and that it shall be the duty of the court of inquiry or appeal, after having ascertained the amount of the fines aforesaid, to place the same in the hands of the constables residing near or convenient to the rendezvous, or regular parading ground of each of the respective companies constituting the brigade, whose duty it shall be to collect the same, deducting therefrom ten per cent, as commission for collecting, and paying over the remainder to the proper treasurer of the county, to be placed to the credit of the military fund; but in all cases where persons against whom such fines have been charged shall refuse to pay the same on demand, after due notice has been given according to the requirements of the law to which this a supplement, then it shall be the duty of the constables aforesaid, to collect such fines in the same manner as they are authorized to collect any debt upon civil process, together with lawful costs; but in no case shall absence or neglect to appear for the performance of military duty work a forfeiture of pay, except when upon a fair and impartial trial before the court of inquiry or appeal, the party so charged shall have been found guilty of willfully and without lawful excuse absenting himself from the regularly called parades of his company, regiment, brigade or division; but any refusal to appear after due notice has been given to answer such charge, either in person, or by affidavit duly sworn to and attested before a proper justice of the peace, shall be taken as evidence of willful neglect, and work a forfeiture of pay accordingly.

SEC. 3. That in all cases where calls shall be made for encampments, either by the Governor or the commanding officer of any division or brigade or regiment, no company shall go into camp before Tuesday morning, or remain longer than Saturday morning of the same week.

SEC. 4. That hereafter it shall be lawful for the Adjutant General to furnish each of the regularly organized companies of this Commonwealth with the requisite number of tents and equipments for camping purposes, under the same provisions and requirments of law as apply to arms and other equipments.

SEC. 5. That it shall be the duty of the several county treasurers of this Commonwealth to prepare annually a statement of the receipts and expenditures of the military fund of their respective counties, setting fourth the amount received from each collector separately, and the amount paid each person to whom money may be due; which statement, after being examined and passed by the county auditors, shall be published in the same manner that the other accounts of the said county treasurer are by law directed to be published; the expenses whereof to be paid out of the military fund of said county, and a statement of the same forwarded by the county treasurers to the State Treasurer of this Commonwealth, on or before the first day of February in each and every year.

SEC. 6. That the State Treasurer is hereby authorized and required to pay out of the aggregate military fund now accumulated, or that may hereafter accumulate, to the several county treasurers, any deficiencies of the county military expenses, wherein statements have been duly transmitted, agreeably to the fifth section of this supplement.

SEC. 7. That so much of the provisions of the act to which this is a supplement as are inconsistent with the provisions of this act be and the same are hereby repealed.

The Appropriation Bill has been before the Senate to-day, and there appears to be any quantity of amendments made to it since it came from the House. As might have been expected, some of the sections were subjected to prolonged debate.

Mr. Fry, the distinghished individual in the divorce case, is in town. He is rather a small, pleasant looking man, and evidently deeply feels the unfortunate position in which circumstances over which he has no control, has placed him. The party of the other part are also here in full force, all of which would seem to indicate that the bill will come up in a day or two beyond the shadow of a doubt. As every inch of the ground will be contested, I anticipate a lively time.

No bills of any importance have passed since my last, if I may accept one which went through the House to-day, and which contemplates selling oats at a standard weight of 32 pounds to the bushel, instead of 30, as heretofore, and another which passed the Senate yesterday, against picking cranberries in Carbon county before the 1st of November, under a heavy penalty. Some very humorous speeches were made on both bills.

In looking over the House file a day or two ago, the following forcible preamble to a bill took my attention:—

WHEREAS, In many portions of this State, persons who have no timber of their own, are in the habit of cutting timber and hoop-poles off the land of others, and of selling the same, &c.

How true!—and it might be amended to read "Whereas, in many parts of this State, persons who have no timber of their own," and find it inconvenient to purchase any, are in the habit of going their neighbors wood-piles, &c., &c.

Hoping to supply you with something more interesting in my next, I am,

Respectfully, LOGAN.

INFANTICIDE.—On last Saturday night, as the watchman on the Pennsylvania Railroad was going his rounds, in the vicinity of the viaduct, 8 miles above Johnstown, he discovered, lying close to the rails, the dead body of an infant, wrapped up in an old skirt, and a stocking tied tightly around its neck, proving that the child was strangled to death. On Sunday a coroner's inquest was held, at which it was ascertained, from the condition of the lungs, that the child had breathed. No clue was found to the guilty parties. It is thought by many that the child was thrown from a passenger or emigrant train on the Pennsylvania Railroad. Infanticides are becoming so frequent that they cease to create much wonder, and it would seem that no means can be adopted to remedy the evil.

Jacobi and Evans.

These two wretched prisoners, who are to suffer the extreme penalty of the law on the 20th of May next, are beginning to suffer considerable mental agony. Evans spends a large portion of his time in Scripture reading and prayer, but as he still persists in declaring his innocence, his heart is evidently not changed for the better.

Jacobi has borne up remarkably well, until within a few days past, when his stoic indifference is no more apparent. He shows no signs of emotion, when entertaining company, but his thoughts prey upon him terribly in the silent hours of night. His cell mate, a German, confined upon a charge of larceny, states that Jacobi has slept but little for several nights past.—He tosses and turns upon his miserable cot, and frequently gives vent to his feelings by tears and sobs. He cannot suffer to remain in the cell without a light, and a candle is kept constantly burning. He often speaks in the most touching manner in reference to his children, and wonders what shall become of them after he is gone. He attributes his mental distress to this painful anxiety in regard to the welfare of his children, and does not admit that he fears death on his own account.

Wretched, wretched indeed, is the condition of these blood stained men, and it is not to be wondered at that they pass sleepless nights.—"What is done cannot be undone," and they must continue to suffer the pangs of remorse and the goadings of conscience until the law deprives them of that which they have forfeited by crimes so unnatural and atrocious.—*Pitts. True Press.*

EXTRAORDINARY CALAMITY.—A letter from Taganog, in the east sea of Azoff, of the 24th, states that three days before, a terrible calamity befel that town The weather being beautifully fine, many of the inhabitants, of all classes, were on the ice to some distance from land. All at once a violent tempest came on; and the sea, breaking up the ice, rolled in on the land with extraordinary violence. It even broke over the cliffs near the town, and filled an extensive valley with water, transforming it literally into a marsh. The women, who had been left at home, assembled on the heights and the tops of houses, offering up prayers to Providence to spare the lives of persons on the ice or out at sea. Soon after, dead bodies frightfully mutilated, begau to roll in, and persons were seen on large fragments of the broken ice, running to and fro in terror, or apparently deliberating as to what could be done. It is impossible to tell how many people perished, but the number was considerable. In addition, many fishermen were out at sea, and it is feared that they have perished.—*English Paper.*

A WANDERING PRINTER.—Karl Ungling, a journeyman printer, died at Detroit a few days ago, after wandering over a large portion of the world. According to the Ohio *Statesman* he was banished from Baden Germany, for participating in the revolution of 1848. He reached the United States just in time to volunteer in the Mexican war, and was wounded and disfigured for life at the battle of Buena Vista. After the war he traveled from Maine to Louisiana, and to the frontiers of civilization, as a journeyman printer; commenced the first German paper published in San Francisco; subsequently joined a theatrical company in Cincinnati, and was everywhere known as scholar, poet, musician and wit. He never remained long enough in one place to call it his home, but wherever he went he left friends who admired his extraordinary talents and his characteristic vagaries.—He could spin a yarn, write a poem, make a speech, sing a song, bring a melody from a guitar, or tip a glass of lager beer with unequaled spirit and cosmopolitan elegance.

☞ The wife of Lemuel D. Patterson, who lives not far from Clarksburg, Va., recently pursuaddd her husband to sell his land and and houshold effects, with the view of going to Columbia city, Indiana. The wife managed to get hold of the money, having convinced Mr. Patterson that it would be much safer in her hands. The wife started west, the husband remaining to collect up, By the time Mr. Patterson joined his wife she had fallen in love with another man, with whom she was running away when the husband met them accidentally at a railroad depot. Mr. Patterson wanted his money, when his wife's paramour swore he shouldn't have it. A desperate fight ensued, in which both parties fell off the platform.—After the fight Mrs. Patterson and her new lover left for Chicago, and Mr. Patterson returned to Virginia with a black eye, a bruised nose, and with a cooper box and a pair of saddle bags full of old clothes, having lost his wife, daughter and all of his money, and seen the elephant.

☞ Young Men just starting for Pike's Peak may be interested in knowing the *modus operandi* of obtaining the pure gold. An exchange, whose editor has been "thar," gives it as follows: The method, however is confined exclusively to the Peak.

"A man takes a frame-work of heavy timbers, built like a stone boat, the bottom of which is composed of heavy iron rasps. This frame work is hoisted up to the top of the Peak, and the man gets on and slides down the top of the mountain. As he goes swiftly down, the rasps on the bottom of the frame work scrape off the gold in immense shavings, which curl up on the machine, and by the time the man gets to the bottom, nearly a ton of gold is following him.—This is the common manner of gathering it."

GOLD FOUND AT MILL CREEK.—For some weeks, says the Huntingdon *Globe*, we have heard that gold was found in the neighborhood of Mill Creek, some five miles below this place, but we supposed that some of the sharpers in that neighborhood were trying to hoax our citizens. On Saturday last we were shown specimens of stone containing the gold and also a piece of gold worth $2,50 in its purity—the same will be sent to Philadelphia, to have tested. If all is gold that glitters, or looks like gold, in that heighborhood, we may expect a Pike's Peak emigration in that neighborhood in a short time. Those into the secret, assure us that the neighborhood of Mill Creek will soon turn up more profitable than the gold region Pike's Peak.

NARROW ESCAPE.—A few days ago at the high bridge near Catawissa, the passenger train came near making a wreck. Some casting or bolt broke, just as the locomotive and first car reached the bridge, one hundred and fifty feet high. The front end of the passenger car was caught by a gust of wind and lifted from the track, landing on the end of the bridge. The motion of the car pulled the bell rope and stopped the engine, so that no lives were lost. It was an instant of fearful peril with a providential deliverance.—*Har. Telegraph.*

☞ Attempted Robery.—An attempt was made to enter the Pennsylvania Railroad station house, at Indiana, on Sunday night last, by four men said to be known in that locality. They were in the act of removing the lock from the door when the watchman on duty discovered them, and discharged a pistol at them, without, however, inflicting any injury upon any of the party, who beat a hasty retreat, and made good their escape.

☞ An Irishman who had returned from Italy, where he had been with his master, was asked, in the kitchen, "Yes, then Pat, what is the lava I hear your master talking about?"—"Only a drop of the crater," was Pat's reply.

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

SANFORD'S LIVER INVIGORATOR.

Is one of the best Purgative and Liver Medicines now before the public, that acts as a *Cathartic*, tonic, nidilor and more effectual than any other medicine known. It is not only a *Cathartic*, but a *Liver* remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach fails, and the whole is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure, and, WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring. Only one dose taken before retiring, prevents Nightmare. Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS. One dose taken after each meal will cure Dyspepsia Oneor Bilious Attacks are cured, spoonful will always remove obstruction and makes a perfect cure. One bottle taken for female obstruction removes and makes a perfect cure. It speedily relieves Cholic, while one dose is a sure cure for CHOLER MORBUS, and a preventive of CHOLERA. Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for JAUNDICK removes all sallowness or unnatural color from the skin. One dose taken a short time before eating gives vigor to the appetite, and makes the food digest well. One dose often repeated cures Chronic Diarrhœa in its worst forms, while Summer and Bowel complaints yield almost to the first dose. One or two doses cures attacks caused by Worms in children; there is no remedy in the world, as sure, safer, or speedier as it. A few bottles cures Dropsy never *fails*. We take pleasure in recommending it as a preventive for Fever by exciting the absorbents and Ague, Chill Fever, and Bilious to their healthy action, and thousands are willing to operates with certainty, testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞ Mix Water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, *even the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache*, all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

DR. SANFORD, Proprietor, 345 Broadway, New York.

MORE THAN 500,000 BOTTLES SOLD IN THE *NEW ENGLAND STATES* IN ONE YEAR.

The Restorative of Prof. O. J. Wood for Restoring hair perfectly and permanently, has never yet had a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that *it is a perfect Restorative*; but read the circular and you cannot doubt; read also the following.

☞ The Hair.—People have for centuries been afflicted with bald heads and the only remedy, heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request, that they will try once again, for in Wood's Restorative they will find such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been before.

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should be left untried to obtain such a consideration.—*Woman's Advocate*, Phila.

COLUMBIA, Ohio, NOV. 17, 1856.

O. J. WOOD & CO.—Gents: As I have been engaged in selling your Hair Restorative the last season for one of your local agents (R. M. Hackinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced *there is nothing equal to it in the United States, for restoring the hair.* I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that restored the secretive organs or invigorates the scalp as well as yours, being fully convinced that your restorative is what you represent it to be. I would like to engage in the sale of it, for I am satisfied it must sell. Yours truly,

S. T. STOCKMAN.

Wayland, Mass., Feb. 5. 1857.

PROF. O. J. WOOD & CO,—Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. In the operation I have used nearly three bottles.

Yours &c., JAMES FRANCIS.

CONCERT.—On Monday evening last, the Altoona Brass Band, assisted by the Altoona String Band, and a number of amateur vocalists, gave a concert in Keystone Hall. The members of the Brass Band executed the pieces selected in their usual good style. The violinists, Messrs. Delo and Wier, performed their parts admirably, giving evidence of superior skill in handling the "bow," and a perfection in music seldom attained by amateurs in the country.—Dougherty "touched his guitar" with skillful fingers, fully sustaining the reputation he acquired by his performances at the concert for the benefit of the poor. To Kerry was assigned the part of amusing the audience by singing comic songs, and right well did he fill it up.—His first song, entitled "The P. R. R.," composed by one of the members of the Brass Band, and given to him to commit at noon of Monday, was received with shouts of applause, and was encored so loudly that he again appeared and treated the audience to a song on the "Deceitfulness of Appearances," which was well received.

☞ When Dr. Franklin's mother-in-law first discovered that the young man had a hankering for her daughter, that good old lady said she did not know so well about giving her daughter to a printer; there were already two printing offices in the United States, and she was not certain the country would support them. It was plain young Franklin would depend for his support on the profits of the third, and this was rather a doubtful chance. If such an objection was urged to a would-be son-in-law when there were but two printing offices in the United States, how can a printer hope to get a wife now, when the present census shows the number to be 16,657.

It may be that this good old lady was slightly tainted with the same spirit that gives many of the people of our day such a holy horror for printers. We mean the spirit of aristocracy.—Printing and freedom can travel together, hand in hand; but printing and aristocracy never can.

THE COLPORTEUR.—Mr. Focht, the colporteur of the American Tract Society, who for some time past has been engaged in selling the publications of the Society in this place, gives us the following statement of his labors.

"I have visited 365 heads of families on the West side of the Railroad, and 288 on the East side,—making in all 653,—and sold $271,95 worth of books. Permit me through your paper to tender my thanks to the people of Altoona for the hearty reception they gave me, and the interest they manifested in the Tract cause. May their hearts and pure religion be revived by reading the hundreds of books I have distributed among them."

PATTERSON HOUSE.—The "Patterson House," in Patterson, Juniata County, has been leased by Capt. Jas. Rees, formerly of the Mifflintown Hotel Mifflintown, same county. Capt. R. understands the business and will keep the house in good style.

HIGHLY COMPLIMENTARY.—We copy the following complimentary notice of our Mountain city, and a few of its prominent men and institution, from the Pittsburgh *Press*, of Monday last:—

THE CITY OF ALTOONA.—During a recent visit to this flourishing city, we were much surprised at its present advanced position, as well in regard to population as to its increasing business and general appearance of prosperity. Here—where ten or twelve years ago there was but one or two log cabins—a thriving, busy city, containing immense manufacturing establishments, churches, hotels, stores, and magnificent private dwellings, has been established, while the population, numbering nearly eight thousand souls, are as intelligent, industrious and honest as can be found any where.

While there, we were very politely shown through the city and its principal business places, by Col. John Woods, formerly of Indiana county, now the proprietor of the Altoona Hotel, and Mr. B. F. Rose, the gentlemanly Chief Clerk of the Transportation department.

The great features of the business portion of the place, are the extensive machine shops of the Pennsylvania railroad. Here, the cars, bridges, boilers, castings, in fact, all the vast machinery and innumerable articles used on the whole road, are gotten up with despatch, and in the best possible manner.

The car building establishment, which is carried on in the most extensive manner, is under the control of Mr. C. R. Hostetter, a gentleman of integrity and experience, who turns out nothing in his line but the neatest and best.

Mr. Alex. A. Smith is the foreman of the bridge and boiler shop, where bridges and boilers of the very best kind are constantly ready for use, and in process of construction.

The sheet iron, copper and tin shop, under the superintendance of Geo. W. Sparks; the brass foundry, A. H. Maxwell, foreman; the iron foundry, C. R. M'Crea, foreman; the pattern shop, Wm. Boyden, foreman; the round house, A. C. Vauclain, foreman, and the machine shop, John A. Nichols, foreman, are all model institutions, and reflect great credit, both on their projectors and those having them in charge.

Mr. George W. Grier, a gentleman of great experience, sound judgment and correct habits, is also located here, as master of machinery for the whole road.

Some six hundred persons derive their support directly from these works, while the whole business and living of the city is indirectly dependent upon them.

We might extend this article to almost any length, in praise of the many enterprising and interesting matters to be seen at Altoona, but our time and space at present precludo it. We may refer to the subject again. We can not close, however, without reminding our friends that Col. John Woods, of the Altoona Hotel, is the prince of clever gentlemen, and keeps an excellent house, his table being always supplied with good, well-cooked and substantial fare. As good a meal as any man would desire, can always be had at his house for twenty-five cents.

POVERTY AND RICHES.—It is truly said that no man can tell whether he is rich or poor by turning to his ledger. It is the heart that makes a man rich. He is rich or poor, according to what he is, not according to what he has. A man to-day, for instance, may have but $10, $5, $2,50 in his pocket. But to-morrow he may have $50,000, or its half or quarter. How is this great change to be wrought, the reader may ask? Under ordinary circumstances we would answer by demanding with the question a fee; but we will answer it without price on this occasion. Send $10, $5, or $2,50, to Wood, Eddy & Co., Wilmington, Delaware, or Augusta, Ga., and you insure your chances of drawing the great prize, or its proportion.—You cannot, indeed, to-day, tell whether you are rich or poor, by turning to your ledger, but by a fortunate turn in the wheel of fortune, under the management of Wood, Eddy & Co., you may turn up to-morrow a $50,000 prize

TROUBLESOME COUGHS AND COLDS.—The health of the community is always a subject of serious consideration to those who are supposed to direct public opinion, and there is no more prevalent source of untimely deaths than the coughs and colds, which make their appearance during the winter and spring months. We would advise all such who are afflicted with any lung difficulty to apply at once to Dr. Keyser's Pectoral Syrup, a medicine prepared by a careful physician of the old school, who has cured himself by this great medicine, nearly twenty years ago, and has since used it with wonderful effect. We know Dr. Keyser to be a man entitled to the respect of the public, and as such, we would recommend his Pectoral Syrup as a superior remedy. Sold at G. W. Kessler's, Altoona.

CORRECTION.—We wish to call the attention of the Altoona correspondent of the Perry County *Democrat*, to an error in his or her communication. The population of Altoona is about 5,000 instead of 2,000 as stated. There are enough of persons outside of our town who endeavor to underrate our population, without our own citizens doing so, although we believe the error referred to was not intentional. Altoona is not a "one horse" town, and we can not permit such a flagrant error in the number of its inhabitants to pass unnoticed. Otherwise the communications of "Ainagriv" do no more than justice to our institutions.

GO TO THE LECTURE.—We hope our friends will not forget the lecture to be delivered in the Methodist Church this (Thursday) evening, by L. W. Hall, Esq., before the Mechanics' Library and Reading Room Association, subject—Benjamin Franklin. As the lecture will be free, and the Association, the lecturer and the subject are worthy of encouragement and consideration, we hope to see the church well filled. As this is the first of a series of lectures to be given before the Association, we hope the Lecture Committee may receive proper encouragement to proceed to invite lecturers.

GRIEVOUS ERROR.—In publishing, in last week's paper, the call for a second meeting of the Sabbath School Association, for the purpose of electing officers, we published it for the *second* Friday of April, when it should have been the *first* Friday (to-morrow) evening. The mistake occurred through a misunderstanding on our part of the evening mentioned. We hope that no harm to the cause may result thereupon.

ROBERTS' REMOVAL.—Our jovial friend and excellent shoemaker, John H. Roberts, has removed his boot and shoe store into his new building, on Virginia street, immediately opposite Kessler's Drug Store. Roberts keeps a fine assortment of goods in his line, and builds, to order, about as neat and substantial boots and shoes as any other shoemaker in the country.—Give him a call in his new establishment.

DISTRESSING ACCIDENT.—It is with pain we record the sudden and violent death of an estimable young citizen of our town—Mr. James McCormick. Mr. McC., at the time of his death was a fireman on the No. 107 passenger engine; and on Monday, while bringing the Mail train up, and when about a mile west of Harrisburg, his attention, it is supposed, was attracted to something in the rear of the train, and he stepped between the tank and engine, (on the engineer's side), to look out—when a plug at a water station struck him and knocked him off the engine. The train was immediately stopped, and backed to the place where he fell. He was found a corpse, his skull completely crushed. He was taken back to Harrisburg, and brought to his sorrowing friends by the Express train next morning. His remains were escorted from the cars to his residence in East Altoona, by a large and solemn concourse—evincing the fact that his circle of friends was a large one, and that his death was greatly lamented. He was buried at Newton Hamilton on Tuesday.

Mr. McCormick, about five years ago, was placed in the employ of the Company by one of the Companies officers who was favorably impressed with his merits, while attending the funeral of a brother, (a conductor on the road), at Newton Hamilton. At that time he and a surviving brother, (now an engineer), were the sole support of an aged mother and two sisters—and although young and in an humble position; (he was employed as "Cleaner" in the round House), he devoted his entire means to the support of his family. This exemplary conduct, and his marked industry and faithfulness, induced the Company to promote him to the position he occupied at the time of his death—and, we are informed, in a short time he would have been raised to the responsible position of engineer.—He was strictly moral in character, enjoyed the good will of all who knew him, and, all in all, was a *man*. What more, which is good, can be said of him?

C.

WELCOME TO SPRING.—We have seldom met with a more exquisite poetic effusion than the following "Welcome to Spring," by one of our most popular lady writers:—

Spring is coming, with her flowers,
And her sunshine, and her showers;
Spring is coming—Spring is coming!
Hear the little bees a-humming!

Bursting buds and crimson roses,
Each the happy truth discloses;
Spring has come to deck the bowers;
Spring is laughing thro' the flowers.

O'er the hill tops bleak and bare,
Softly floats her golden hair;
And the blue sky pensive seems,
As a maiden when she dreams.

Gentle zephyrs softly trend
Round pale winter's icy bed,
Singing old familiar lays
Of the happy by-gone days.

And the little birds are singing,
Hark! their merry notes are ringing:
Ah! what melody doth float
From each tiny warbler's throat!

Rosy, dimpled, smiling Spring,
What a world of joy you bring!
Every heart with transport greets you,
And to linger long entreats you.

LOCAL CORRESPONDENCE.

HOLLIDAYSBURG, March 29th, 1859.

MESSRS. EDITORS:—A number of young men of this place are now making an effort to establish a Gymnasium. They have thus far met with great success, a liberal amount having been subscribed by our citizens. An institution of this kind has long been needed in this town—in fact, our whole country blessed as it is with ample means for the mental education of the youth of the land, is sadly deficient in supplying them with opportunities for physical improvement. We trust that the effort may be successful, and that it may become a permanent organization.

On Saturday last the "Juniata Rifles," of this place, paraded through portions of our town.—This company has been but recently organized, and numbers between 60 and 70 members, all fine looking men. It was under the command of Capt. Lloyd, to whose energy and spirit, the company greatly owes its formation. It presented a very handsome appearance and the members acquitted themselves very creditably.

The young man, Harlin, who had been lodged in jail on suspicion of poisoning the horses of Mr. Stewart, was on Tuesday last, brought before Justice Cox, and gave bail to the amount of $500, for his appearance at Court.

The accident at Chimney Rock Furnace, causing its stoppage has been repaired, and it was put in blast again on Thursday evening last. The energetic proprietors of the Furnace deserve great credit for the speedy manner in which they have surmounted the many obstacles they have met since they started the Furnace.

The water was let into the Canal last week, and the usual business has commenced. Our ears, however, which formerly were almost deafened by the tooting of horns, now seldom hear their enlivening sounds. The business which in former years was extensive has now become very small, consisting principally in iron and coal. We trust that our town may again enjoy the amount of business which attended it in earlier years of canal navigation.

SPECIAL NOTICES.

THE GREAT ENGLISH REMEDY.

SIR JAMES CLARKE'S
CELEBRATED FEMALE PILLS.

Prepared from a prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the cure of all those painful and delicate diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price one dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the first three months of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

Sole Agent for the United States and Canada,
JOB MOSES, (late I. C. Baldwin & Co.,)
Rochester, N. Y.

N. B.—$1.00 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle, containing 50 Pills, by return mail.

Dalley's Magical Pain Extractor.

In all diseases inflammation more or less predominates—now to allay inflammation strikes at the root of disease—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR,
and nothing else,
will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR
will cure the following among a great catalogue of diseases:
Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Sprains, Bites, Poison, Chilblains, Biles, Scrofula, Ulcers, Fever Sores, Felons, Ear Ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barbers' Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its opposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR
In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

Sold by G. W. Kessler, Altoona; George A. Jacobs, Hollidaysburg; and by all the Druggists and patent medicine dealers throughout the United States and Canadas.

YOUTH AND MANHOOD.—JUST

Published, the 26th Thousand, and mailed in a sealed envelope, to any address, post paid, on receipt of three stamps,

A medical essay on the physical exhaustion and debility of the young and middle aged, caused by "self-abuse," infection, and the injurious consequences of mercury. By R. J. Culverwell, M. D., Member of the royal college of surgeons, &c.

☞ Spermatorrhœe or Seminal Emissions, Genital and Nervous Debility, Impotency, Loss of Energy, Depression of Spirits, Timidity, Diseases of the Sexual Organs, and Impediments to Marriage, are promptly and effectually removed by the authors' novel and most successful mode of treatment, by means of which the invalid can regain pristine health without having recourse to dangerous and expensive medicines.

(From the London Lancet.)

The best treatise ever written on a subject of vital importance to all, well worthy the author's exalted reputation.

DUVALL'S GALVANIC OIL.

Prepared originally by Prof. H. DU VALL, formerly of the College of Surgeons, at Paris, is now offered to the public, ☞ for the cure of sore and painful diseases. ☜

For instance—Pain or soreness in any part of the system; Rheumatism, pain in the back, breast of side, healed breasts, neuralgia, burns, sprains, headache, cramp in the stomach, or any other disease that is SORE and PAINFUL, and it is only over this class of diseases that we claim a perfect VICTORY. We say positively to our patrons we can relieve the sufferer 99 times out of 100. We would just say to the public, Prof. Du Vall was 25 years in bringing to this medicine superiority over all others.

Price 50 cents per bottle—½ per cent. cut off to the trade. All orders must be addressed to

STOVES! STOVES! STOVES.—The

undersigned has just received from Philadelphia, North, Chase & North's celebrated Cooking Stoves for 1857.

THE ROYAL COOK

for Wood or Coal. This beautiful Cooking Stove challenges all competition for the exquisite style of ornament and perfect operation in all respects. The oven extends under the fire-box and the flues are so arranged that the whole oven surface will bake perfectly and uniformly. The slightest examination of this Stove must satisfy every one that it will become a universal favorite.

THE SEA SHELL,

for wood or coal. The fire-box is of good capacity—the ash-box is deep—the oven is capacious and is a thorough baker. This stove is one that may readily be recommended for family use, in every particular.

All kinds of heating and parlor stoves constantly on hand. JOSEPH H. BUSH.

ON MANHOOD, AND ITS PREMATURE DECLINE.—Just Published, Gratis, the 20th Thousand:

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhœa or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally, by

B. DE LANEY, M. D.

The important fact that the many alarming complaints originating in the imprudence and solitude of youth, may be easily removed WITHOUT MEDICINE, is in this small tract, clearly demonstrated; and the entirely new and high ly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure HIMSELF perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis and post free in a sealed envelope, by remitting (post paid) two postage stamps to Dr. B. DE LANEY, 83 East 31st street, New York City.

SUFFERING HUMANITY, READ

THIS.—The undersigned takes this method of informing the public generally that there is no medicine now offered to the public that is equal to DU VALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects on a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some internally, and in 20 minutes the pain was asleep, and when awakened was free from pain and continued so. This is a positive fact which I am willing to make good at any time. A case of Felon was cured in nearly the same length of time. J. H. HAIN,

DR. COGGSWELL'S NEW MEDICAL SALT. *For Inflammatory Diseases only.*

NEW MEDICAL SALT! NEW MEDICAL SALT!
IT IS NOT A CURE-ALL.
For Inflammatory Diseases Only!

DR. COGGSWELL'S NEW MEDICAL SALT, instead of being a remedy or all ills, has control over but one ill, but one aim, and accomplishes but one thing, to wit: Subdues INFLAMMATORY DISEASE, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

The peculiar excellence of the NEW MEDICAL SALT is, that without the useless loss of blood and strength, it effectually cures INFLAMMATORY DISEASE (no other) by producing an equilibrium of all the fluids in the body, the want of which is the sole cause of inflammation.

INVALIDS, TAKE NOTICE!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever, are as easily subdued by the NEW MEDICAL SALT, as fire is extinguished by water, to wit: Brain Fever, Headache, Rush of Blood to the Head and Heart, Fits, Inflamed Eyes, Ears and Nose, Canker, Neuralgia, Spinal Affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Inflamed Lungs and Liver, Heartburn, Coughs, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, Salt Rheum, and all Itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT exerts, like the vaccine matter, an extraordinary influence on the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat, pain and fever disappear.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids, by removing from the system all arterial and venous obstructions. Description circulars may be obtained from any Druggist who has this valuable medicine for sale.

HOWARD ASSOCIATION, PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual Diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a *charitable act* worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give medical advice *gratis*, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in case of extreme poverty and suffering, *to furnish medicine free of charge.* It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolence have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Nervous Debility, or Self-abuse, and other abuses of the sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope), FREE OF CHARGE, on receipt of TWO STAMPS for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

GREAT DISCOVERY OF THE AGE

IMPORTANT TO

TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S TASTE RESTORATIVE TROCHES, *the great Substitute for Tobacco.*

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject; as careful analysis and long and painful experience have clearly proved, that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying sickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches of Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned to whom all orders should be addressed.
